

TechKnow Cradle '19

Techknow Cradle (innovation workshop) is a Jadavpur University Science Club initiative started by one of the Founders of the Club, Biswadeep Maity which aims at promoting the practical aspects of science and Robotics to school children of Class 8, 9 and 10.

The aim of the event is to inspire school students to think out of the box and delve a little bit more into the applications and practical aspects of Science which is very limited in Indian schools.

Techknow Cradle was held on 14th and 15th of July, 2019 at OPT Hall, from 9:00 am to 5:30 pm. Snacks, Drinking Water and Lunch were provided on both the days. A humble fee of Rs. 900 was charged per participant.

A total of 103 students attended the workshop from schools all over the city. Students came from Gokhale Memorial Girls' School, Holy Child Institute, Kendriya Vidyalaya Salt Lake, AK Ghosh Memorial School, Nava Nalanda, etc. The overall participation has increased notably from last year.

The workshop was an immense success. We received very positive feedbacks from the participants. They put forward various suggestions on the topics for future workshops, which we have been seriously considering to conduct if possible in the near future.
